IMPRESSED CURRENT CATHODIC PROTECTION SYSTEM 60-DAY RECORD OF RECTIFER OPERATION

- > This form may be utilized to document that the cathodic protection system rectifier is checked for operation at least once every 60 days.
- > Checked for operation is taken to mean that it was confirmed the rectifier was receiving power and is "turned-on".
- If your rectifier is so equipped, you should also record the output voltage, amperage and the number of hours indicated on the meter.
- > Any significant variance should be reported to your corrosion professional so that any repairs and/or adjustments necessary can be made.
